

NAIR, Vadodra organized

National-level Seminar on Urban Transportation Systems

National Academy of Indian Railways (NAIR) organized a seminar on “**Urban Transportation Systems – Trends in Metro Railways and Intercity Transportation Systems**” on July 3, 2017. The seminar was attended by senior functionaries of Indian Railways, the Ministry of Urban Development, various Metro Railways, as well as academicians, officers and experts from several other reputed institutions, such as IIM-Ahmedabad, Bombardier and CRIS.

The focus of the seminar was on existing status and the future roadmap of urban transportation systems in the country. The speakers discussed in detail the present status of the metro rail and other urban transport systems in India. Various opportunities and challenges that the country is expected to face given the rapidly expanding metro networks in the country, as well as the suggestions for streamlining implementation of metro projects throughout the country were also deliberated upon. Success stories of metro networks operational in cities, like Delhi, Jaipur and Mumbai were also be discussed in detail.
